

Eligible Dependents for Health Coverage

- Your legal spouse or eligible domestic partner.
- Your unmarried children (including the unmarried children of your eligible domestic partner) under 19 years of age or up to 26 if a full-time student (meaning at least 12 credit hours per semester for college for graduate school and accredited training programs, full-time status is usually defined by the institution). The term "children" includes any natural children, any legally adopted children, any stepchildren who reside with you, and any dependent children permanently residing in your household and for whom you have legal custody.
- An unmarried child (including an unmarried child of your eligible domestic partner) beyond age 19 who is incapable of self-support because of a mental or physical disability, and who depends on you for support.

Proof of eligibility is required before health coverage will be extended to your dependents. Please attach copies of the documentation presented below to add eligible dependents to your health coverage.

IF THE REQUIRED DOCUMENTATION IS NOT ATTACHED TO THIS FORM, YOUR DEPENDENTS CANNOT BE ADDED TO YOUR HEALTH COVERAGE.

For Spouse	For Unmarried Children	For Court Ordered Support
To add a Spouse: Marriage Certificate	For a Natural Child: Birth Certificate	Copy of Signed Court Order requiring Insurance Coverage
To remove a Spouse: Divorce Decree	For an Adopted Child: Copy of Adoption Papers	
	For a Step Child: Birth Certificate, Marriage Certificate and Divorce Decree or Custody Papers	
	For a Disabled Child: Physician verification of permanent disability	
	For a Full-Time Student over Age 19: Verification from the institution regarding status and semester hours	

For Qualified Domestic Partner Proof of Eligibility requirements, please refer to the separate *Domestic Partner Benefits* document.
